

3 August 1977

MEMORANDUM FOR THE RECORD

SUBJECT : Meeting with ABC Personnel

1. Mr. Hetu called a meeting in his office to meet with Mr. Woodie Frazier and Miss Sonia Selby-Wright, ABC "Good Morning America" representatives. In attendance were:

Mr. Hetu

STATINTL

Mr. Gambino

STATINTL

2. Mr. Frazier described his interest in putting together a show perhaps of an hour length. At least tentatively they would plan to have the show available for Friday 16 September. Mr. Frazier commented that it is difficult to know exactly what they wanted since they didn't know how much they would be permitted to show. We discussed segments that might include the Library, cartography map-making, something of security implementation, a live segment of the DCI. (This probably discarded in view of the difficulty in transmitting from the building.) The DCI interview will probably be from the downtown studio.)

3. After considerable discussion it was felt a good possibility might be the recruitment of staff employees, showing how, once they are hired by the Agency, they move on different tracks through the four Directorates.

4. Another topic might be NPIC, which would include some of the training of the photogrammetrists.

5. Mr. Hetu suggested that an ABC researcher come out to the Agency to discuss how these segments might be done and what could be included.

6. Considerable interest was shown on the part of the ABC people on the fact that the same security procedures are followed for ~~by~~ char force, guards, clerical and up through the DCI.

7. After the session the undersigned took Mr. Frazier and Miss Selby-Wright on a tour of the first floor of the building, the library, ops center and cartography. They seemed pleased with the prospects of a show on the Agency and stated emphatically that they wanted it done longer and better than the one done by CBS.
